

The Tradition Partnership
Bespoke Pension and Investment Solutions

**Bringing traditional
pension values to life**

A fresh perspective

Here at Tradition we strive for a return to traditional pension values where your company pension scheme becomes an integral part of your business, recognised as something of value in which employees have a sense of pride.

Benefits to your business include:

- An individually designed and tailored company scheme;
- Quality administration and efficient investment management, communicated effectively;
- Transparent and cost effective pricing.

Tradition - here to ensure your workplace pension is the best it can be.

Any business, whatever sector, can be enhanced by building a motivated and loyal team of employees. We know that an integral part of that loyalty can come from having a quality pension scheme designed for you and tailored to the needs of your staff.

If a pension scheme can be so fundamental to your company's success why compromise? The all too common, "One size fits all" pension arrangement should have no place in today's business environment.

If you think bespoke equals expensive, think again.

Once we have a full understanding of your business and any current pension arrangements, we are confident we can create an exceptional and highly cost effective solution.

Whether you wish to establish your first company pension scheme, or want advice on managing an existing arrangement, we can guide you through the whole process.

Tradition Partnership will draw together the expertise of leading industry specialists in the pension and investment arenas, creating an impressive team able to design and build tailored pension solutions you and your staff can be proud of.

"Underpinning our entire range of services is a relentless desire to provide companies with a highly valued, individually tailored, pension scheme they can be proud of.

A scheme in which traditional pension values are key and in which we strive to deliver the highest levels of ongoing support".

Al Baker
Managing Director
